About Me

I'm Maxmilián Ottomanský, a data analyst who loves working with all kinds of data and turning them into actionable insights. My work at ŠKODA AUTO and DataBrothers, especially in HR analytics, has fueled my passion for finding the trends and patterns that help businesses grow. My background in gaming taught me to think strategically and constantly seek out new approaches. That's why I'm pursuing my Master's in Data Analysis – to take my skills to the next level.

Experience

ŠKODA AUTO a.s.

2021 - Present

- Analyze HR data to drive process improvements and digital transformation
- Develop Power BI dashboards and reports for informed decision-making
- Contribute to HR digitalization projects through data modeling and automation solutions

DataBrothers

2021-2021

- Created data models, reports, and dashboards using Power BI
- Developed training material for the Power BI Academy
- Organized self-learning sessions to enhance team expertise in Power BI
